This correspondence is also pursuant to DPA 1998/2018 and GDPR 2018 and is a data subject access request, (SDAR). Any failure to respond to this will be met with a complaint against your private company being raised with the information commissioner's office. wo/man : XXXXX. interested third party and beneficiary for XXXXX trust/estate present this affirmation as a declaration and affidavit of truth as evidence of the facts for and on the record Lex Non Scripta: We do solemnly swear that the facts contained herein are true, correct and certain: I reserve all rights and waive all privileges: our vessel (person) is not bonded for the corporate legal arena: the law of statutes is the law of contract.

We as wo/men have the right to decline contract: statutes do not apply, a statute is a legislative rule of society given the force of law by the consent of the governed-we do not give our consent, tacit or otherwise: We are all equal in law, however knowledge separates the governed from the masters. If we are all equal, do we not have the status of sovereigns and diplomats if we choose?

Note, a wo/man XXXXX: interested third party and beneficiary for XXXXX trust/hereby give notice that this payment has been settled correctly and lawfully.

Furthermore, for all of our years living, we have looked to the heavens and seen with our own two eyes, fresh, clean water falling from the sky free it hydrates mankind, and to give very life to the bodies of every life form on the earth:

One can assume this is a different water to which you appear to be claiming ownership of and charging a fee for, and we can also assume that you the private for-profit corporation **WATER COMPANY NAME IN FULL** have a manufacturing plant where your water is created and can prove with full non-misleading disclosure, the chain of custody from manufacture to tap, as it would indeed be unconscionable to take what is being given freely by god himself, with the full comprehension as creator to the fact that to levy or regulated another wo/mans water supply, the very substance that they would die in a matter of days without, would to be claiming the right of god as your own, and holding the very lives of wo/men in your private companies hands, for only the quest for unimaginable profit:

Furthermore, we note that the water you are charging the public for does appear to have been tampered with, and is widely claimed and backed up by quite some evidence to suggest that it does appear to have been contaminated with unknown quantities of dangerous and toxic chemicals: We await analysis reports to confirm but will of course be requiring your own chemical analysis of the water you manufacture/sell to the good honest ever sickening men and women on the land mass of England for comparison.

**If you deem me to be currently bound by contract/agreement to which full non misleading disclosure has not been given, note, that we have no understanding of this matter, you are now notified that any implied contract/agreement tacit or otherwise is hereby Ab initio: null and void.**

We will not allow a plea in our absence in this matter in any court/administration hearing or allow this matter to be dealt with by any bulk handling centre, or any other place of business, operating without a true judge presiding over a trial by a jury of our peers, in a court of equity. Anyone entering a plea without our written permission will be considered the defendant and will be responsible for all costs.

This document does not form part of a negotiable instrument: I cannot give to anyone or anything, any poir or authority we do not have: our law is the bible "if righteousness is made profitable, then corruption will prevail" EX Dolo malo non oritur actio.

Note, under the normal conventions between peaceful, civilised, peoples it is established practice that, if an order is placed, the individual or company making the order must expect to pay for the servicing of such an order.

This is absolutely standard throughout the entirety of civilisation. No reasonable individual ever expects to place orders and have them serviced for free. Even your good self, if you have a superior, and carry out said superior's orders or wishes, you do so on the basis that you are paid a salary for doing so. This same situation holds even for military service personnel, and police officers, etc. They are all paid a salary in order to carry out any orders they are given.

The same also holds with us. The only difference between yourself (a company employee), a military serviceman, a police officer etc., and people at large, is that the mass population are not aware that they have the right to decline contract and/or submit a fee schedule for their own appearance/performance.

Any other situation is untenable, uncivilised, dishonourable, constitutes business malpractice, and flouts natural human rights. And furthermore, is simply a recipe for rancour and disharmony:

We trust, therefore, that henceforth you will make this abundantly clear to everyone concerned that, if a liability order is made against wo/man, the fee's for servicing said order.

Will be non-negotiable:

**WATER COMPANY NAME IN FULL** is nothing more than a private for-profit company claiming limited liability, and offering services for a fee.

Note arguments claiming that 'a service' was provided by **WATER COMPANY NAME IN FULL** fail on two grounds:

The considerations must be equal as both sides consider them to be, and must come entirely from the resources of each Party. And neither party is able to dictate the consideration of the other. Thus any situation where a unilateral demand is made is unlawful, since the other party has not been able to determine their own consideration. And any such contract is thus void under common law, the fundamental law-of-the-land. Any supposed statutory obligation that attempts to operate outside the common law is null and void (again, in law). This was pointed out by Sir Edward Coke, Lord High Chief Justice of England.

Note, fees apply, summery fee schedule attached (for full and comprehensive fee schedule, apply in writing signed in It ink with full liability).

Note, we clearly cannot move forward until non misleading, full and complete disclosure has been given, and you, the private for-profit corporation fulfil your obligation in law and respond in full to the now two lawful documents and DSAR notices that you have been served.

We promise to pay any outstanding monies that can proven to be void, and completion of your obligations in law:

We await in honour and with clean hands while you realise and rectify the apparent clerical error that appears to have taken place:

All accounts must be settled within 7 days of invoice date
